Thank you, Kevin and hello Robert.

Please feel free to call me if you have any questions or would like to get more background on this incident. We are currently developing a workplan for soil sampling at the Site to attempt to define the extent of impacts associated with the gasoline release. We have been working with the EPA in developing this workplan and would like to also coordinate with the RWQCB on these activities.

We are looking forward to working closely with you on this project.

Please call me when you have a chance to discuss.

Thanks.

Brett Bowyer, P.G.

Subject: RE: Slauson Tanker Fire ER Business Card File

Hi All,

Due to case load management, the Los Angeles Regional Water Quality Control Board (LARWQCB) case worker will be Mr. Robert Ehe instead. His contact information is below:

*Robert Ehe, P.E.
Water Resource Control Engineer
Los Angeles Regional Water Quality Control Board
Site Cleanup Program Unit IV
320 West 4th Street, Suite 200
Los Angeles, CA 90013
Robert.Ehe@waterboards.ca.gov
(213) 576-6740*

Robert is cc'd in this email along with Arthur Heath (LARWQCB's remediation program manager) and Jillian Ly (Unit IV's unit chief).

I apologize for the confusion.

Thank you,
Kevin Lin

Subject: Slauson Tanker Fire ER Business Card File

Hi Brett and Deryck,
As per your request during today's site visit, attached please find photos of the business cards collected by OSC Robert Wise during the Slauson Tanker Fire Incident, as well as cards I collected today at the Site.

In addition, the Los Angeles Regional Water Quality Control Board has expressed concern about the site from a water resources protection standpoint. My understanding is that the case representative will be:

Kevin Lin, P.E.
Water Resource Control Engineer
Los Angeles Regional Water Quality Control Board
Site Cleanup Program Unit IV
320 West 4th Street, Suite 200
Los Angeles, CA 90013
213-576-6781
Kevin.Lin@waterboards.ca.gov

I have cc-ed Mr. Lin on this email.

Sincerely,

Ben Castellana, Ph.D.
On-Scene Coordinator
US EPA Region 9
Superfund Emergency Response
(562) 305-0694 cell
